

# CRANE HIRE & RIGGING SERVICES

"Onsite On Time...or Your First Hour FREE"

[www.risesacrane.com](http://www.risesacrane.com)

## What information should I have when calling Rise sa Cranes for Crane Rental?

1. What are you lifting / trying to do?
2. Do you know how heavy the item is that you are lifting?
3. How high are you lifting the load?
4. How far in do you need to place the item?
5. How close can the crane get to the load?.....this helps with knowing crane reach required.
6. Are there any obstructions ...wires, trees, drains, other equipment on site, any buildings?
7. Is access tight....narrow driveways, tight corners?.....a four wheel steer crane could be needed.
8. Are ground conditions stable and area big enough for crane?.....any sloping areas?
9. Will loads be lifted over roadways or public property and will traffic have to be controlled?
10. Are special slings or heavy duty chains required?
11. When do you need the crane?
12. How long do you need the crane onsite?
13. Where is the jobsite located?
14. Do you require a Rigger with the crane?
